

What people are saying about the 'Villa' CD

...A thousand "Thank You"s. Chris and I are listening to your CD right now and it is wonderful - total rapture! It is beautiful and your talent is amazing! What a treat! And talk about getting us excited about our holiday!!!! ... Carolan - Guelph, Ont. Canada

...Every one of his [Villa] tracks touched me on visceral levels. Micheal knows how to connect to a person's heart. His southern Italian style is as smooth as a wonderful Sicilian Marsala dessert wine, and as potent as the ever erupting Mount Etna. Listening to him, makes me visualize romantic wining and dining on the beach front terrazza of the La Cambusa Ristorante in Giardini Naxos. With the stars shining brightly over the Ionian sea, I imagine him serenading from the foot of Calabria reaching over the waters to our hearts falling in love on the isle of Sicilia... Antoinette S. NYC

... Listening to each and every track at any time of the day or night takes you off to Italy. If you know Italy, then you'll know what I mean, but if you've never been there then listening to Micheal's music will make you want to go and explore. If you need to relax then get hold of this CD and you will float away! BRILLIANT! ... Andy M. Somerset, UK

...It's going to sound like I'm making it up, but I HONESTLY like Castaldo's version of "Core 'Ngrato" better than Andrea Bocelli's version. There is nothing like driving in the summer, with the windows (or sun roof) open listening (really loud) to Villa. Ahhhh!... Karen W. (The Netherlands)
